EMOTIONAL PERFORMANCE FABRICS

BLISS is a new brand created by people who have been in the textile industry for a very long time. We have inherited the technical knowledge and resources of Citel – the outdoor performance fabrics manufacturer founded back in 1875 in Barcelona – and added a special sensitivity and aesthetic perspective. BLISS mission is to manufacture performance and decorative fabrics made by and for the senses.

Our team wanted to create a brand that not only demonstrated their technical know-how regarding 100% solution-dyed acrylic fabrics, but also expressed their philosophy of life. BLISS is built on passion, new ideas, effort and an ongoing desire for improvement.

Creating is our favourite state of mind - our bliss -, and the desire to imagine, envision and manufacture fabrics that are truly special is our very reason for being.

ESCANIA collection

The Escania collection is inspired by the aesthetics and functionality of Scandinavian design from the 50s, with textiles that are specially influenced by Finnish entrepreneur Armi Ratia. The collection designs are simple and geometric: the subtle colours are always filtered with white.

The collection conveys freshness, while combining tradition and modernity, urban and natural features. It takes interior design aesthetics to outdoor spaces, such as gardens and terraces.
